ICR GROUP OF ORGANISATIONS

Organize

Orientation Program in Standardized Homoeopathic Practice 2009
&
Intensive course in Standardized Homoeopathic Practice 2009

Highlights of both programs

The participants will get exposure to various Homoeopathic OPDs as well as IPD. The emphasis during IPD rounds & OPD training will be on developing sound clinical approach, learning Physical examination skills & interpretation of laboratory investigations. Participants will receive case material for submission in advance along with a list of preparatory readings. Interactive discussion sessions & weekend Seminars with ICR Faculty members would ensure fast & in depth learning.

Objectives

1. Experiential learning of Standardized Homoeopathic Practice.
2. Learning finer aspects of Case Receiving, Document Evaluation, Problem Definition & Problem resolution.
3. Learning Physical Examination Skills & interpretations of Investigations.
4. Refining our skills of Analysis & Synthesis.

Program

We propose to take up following themes during the intensive. Some more themes may be added after understanding the learning needs of the participants

Philosophy → Practice

- Hahnemannian concept of man: Implications for case receiving and study of Materia Medica
- An Introduction to Standardised case Record

Case receiving

- Importance of document Evaluation and evolutionary study of a person (Video demonstration of interview of a case of Pemphigus vulgaris)

Repertory

- Analysis & Evaluation of Symptoms
- Synthesis: Concept & Practice of Essential Evolutionary Totality
- Boenninghausen's Approach
- Kent's Approach

Materia Medica

- Study of Fish group (Sepia, Murex etc)
- Differential Materia Medica of Grief

Case management

- Planning & Programming of the treatment
- Remedy response assessment

Venue

A brief introduction to Dr M L Dhawale Memorial Trust's Rural Homoeopathic Hospital, Palghar

Introduction

The Dr. M. L. Dhawale Memorial Trust (MLDT) was established in 1987 to carry on the work of Dr. M. L. Dhawale, an eminent Homoeopathic clinician, educationist and a compassionate human being. The MLDT's health care services motto is: "Where no doctor reaches, we will reach. Where patients cannot afford costly services, we will try to provide at minimum costs". The MLDT has at its core the mission of promoting positive health in a cost effective manner. This is not an easy task considering the curative paradigm of health that still dominates most of the current practices.

The Positive concept of Health as enunciated by the WHO takes us far beyond the Curative and Preventive aspect of Disease to the Promotive aspect of Health. Thus we are no longer confining ourselves to seeing the realization of this concept through the efforts of the medical community alone. It has multiple dimensions in which the involvement of the community has assumed paramount importance.

MLDT has been engaged in Homoeopathic education, clinical services, research and community health for over 20 years. It functions on the principle of tri-coordinate care – patient care, learner care and knowledge care propounded and deeply imbibed by the founder. The Trust has strived to realize this essential teaching through its various activities:

- Patient care through the various service outlets in the urban as well as rural areas
- Learner care through its seven major educational activities; and
- Knowledge care through its research projects (accredited by the Department of AYUSH, Ministry of Health & Family Welfare, New Delhi).

Rural Homoeopathic hospital, Palghar

The Rural Homoeopathic hospital, Palghar established on 16th January 2000 has completed 7 years of its operations. It has become the biggest multi-specialty hospital in the Palghar-Vikramgad belt catering to the need of socially & economically underprivileged sections of the society. Majority of our clientele consists of industrial contractual workers, small farmers or landless labourers & tribals.

Our Services

Our 50-bedded hospital offers following Homoeopathic services

Homoeopathic OPD & IPD services

General	Paediatrics
Psychiatry	Rheumatology
HIV & AIDS	Diabetes
Hypertension	Tuberculosis
Asthma	Dermatology

We have established following surgical Departments

Gynaecology & Obstetrics	Orthopaedics
Surgery	Ophthalmology
Dentistry	

Our Investigation facilities are

Pathological lab, X Ray, Sonography, Color Doppler, ECG

Ancillary departments

Physiotherapy Occupational Therapy Community department

We offer round the clock casualty services with trauma care. Our neonatology department has saved the lives of infants weighing less than 1 kg and now we have started an NICU.

Group activities like Alcoholic anonymous, Diabetes club allow sharing of experiences & dissemination of information.

Dr M L Dhawale Memorial Homoeopathic Institute is recognized by Mumbai University as well as Maharashtra University of Health Sciences for conducting MD (Hom) courses in 6 subjects, viz. Hom Philosophy, Materia Medica, Repertory, General Medicine, Paediatrics and Psychiatry with intake capacity of 36 students per year.
