20<sup>th</sup> March 2009

To  
The Principal,

**SUB:** Request for participation in Seminar on Research methodology for  
MD students, PG Guides & teachers

Respected Sir/ Madam,

We all know that Homoeopathy is being criticized all over for lack of adequate research and documentary evidence. The CCH has been serious in introducing the study of Research Methodology at the postgraduate level at the Part I level. Unfortunately, we do not have adequate teachers in the field.

Dr. M. L. Dhawale Memorial Trust, Mumbai has had interesting experiences in conducting AYUSH sponsored Extramural Research projects in Homoeopathy. We have also been conducting ROT Programmes in Research Methodology and Biostatistics and have networked with a number of resource persons in this field. We are now associated with the Smt Ashwini Nene School of Integrated Health Research, Department of Research, Deenanath Mangeshkar Hospital, Pune in a joint Homoeopathic research project.

We have now jointly organized a 2-day seminar on Research methodology. This seminar will not only help the students to know the basics of this difficult subject but also will help in initiating research studies in your colleges. The details are enclosed. May I request you to send your postgraduate students and recommend the seminar to you PG guides and teachers? I am sure that all will benefit from participation in this unique Research seminar organized to celebrate Hahnemann Day.

Thanking you,

Yours sincerely,

Dr. K. M. Dhawale  
Principal

Dr. M. L. Dhawale Memorial Homoeopathic Institute
