

SEMINAR ON RESEARCH METHODOLOGY IN HOMOEOPATHY

By

Dr. M. L. Dhawale Memorial Trust, Mumbai &
Dr. Ashwini Nene School of Integrated Health Research, Department of
Research, Deenanath Mangeshkar Hospital, Pune

18th & 19th April 09

Research in Homoeopathy

Homoeopathy is an Art & Science. Research in any field keeps that field growing. But can research be possible in homoeopathy? If yes, then how? What are the methods? & the most important is who should do research? There could be myriads of questions of such order regarding research. Research seminar has been organized to share our experiences of conducting research which will help teachers, students, practitioners who are desirous of improving their professional faculties.

Objectives:

1. To understand the basic principles of research methodology
2. To know how these methods can be applied in homoeopathic research
3. To learn how to make standard research proposals / Synopsis
4. To understand the concept & technique of data analysis so valid conclusions are possible
5. To learn how to focus on dissertation writing as per the subject
6. To understand the basic concepts of Biostatistics and their use in analysis of data
7. To learn to apply statistical tests in making conclusions
8. To learn how best to perform in Research methodology & biostatistics examination

Who should attend?

- ✓ Post graduate students especially of Part 1
- ✓ Teachers of PG & UG of Homoeopathic colleges
- ✓ Guides of PG students
- ✓ All Homoeopathic practitioners
- ✓ Researchers / Practitioners of other systems of medicines
- ✓ Well-wishers of Homoeopathy
